---	---	---

Event Description:

The seminar began with explaining the various aspects of copy right by Mrs. Sujatha Gade. She discussed in detail about the topics like ‘What is copyright? What do we mean by author or creator?’ Originality of Literary works, Judicial decisions (Copyright in judgments produced by courts V/s government) etc. She concluded the session by discussing about Trademark”, “Service Mark and Collective mark”. Her presentation was much informative as she cited interesting case studies. The seminar was highly informative to students, teachers and Research Scholars.

Event Description:

Intellectual Property Right (IPR) with special reference to patent plays a vital role in enhance the socio-economic prosperity of the country. One can agree that the first best Intellectual Property Right policies are not only to minimize the transaction costs and conflicts of interests but it provide incentives to invest on innovation which in turn maximize wealth of nation. Hence, it enhances motivation to dissemination scientific and technological information with in turn simulates research and development for improvement of the quality of life. In India patent applications is filled by a patent agent or individual having some scientific and technical background to understand the invention. However, no one can understand the invention better than the inventor themselves.

Event Description:

The primary goal of this workshop is to bring together students, research scholars and experts aimed at dissemination of leaning and understanding of the statistical paradigms into research. The participants are expected to receive an in-depth insight, along with, actionable and practical tools, methods and ideas to conduct a research. This program aims to understand and identify the prerequisites of statistical analysis, including leaning how to select and apply appropriate techniques to research as per the requirements. The workshop will consist of lectures and hands-on practice sessions.

Event Description:

The aim of this workshop is to impart knowledge about the real time applications of IoT among students and teaching community. Experts from academia and Industry have been invited to deliver lectures about the current and emerging trends in IoT. The workshop will focus on both theoretical as well as hands-on experience in IoT Technology to interface the things for different applications using Raspberry Pi/Arduino/Intel Galileo or ESP8266 toolkits with devices such as LEDs, sensors, actuators etc. Theoretical session will be conducted in the morning hours and practical sessions in the afternoon. At the end, a small project will be given to the students as a task and the winners will be awarded certificate of participation and prizes.

Sub: Permission to organize – Two Day National Level Workshop on Advanced Real Time Embedded Systems – Req. – Reg.

Sir,

In accordance to subject cited above, I Mrs. A. Jhansi Rani, Head of the Department, Electronics and Communication Engineering, here with this letter requesting you to give a permission to organize **Two Day National Level Workshop on Advanced Real Time Embedded Systems** during 10/Feb/2020 - 11/Feb/2020. I also request you to provide all the needed facilities.

Thanking you.

Yours Sincerely,

A. Jhansi

Sub: Budget proposal for Two Day National Level Workshop on Advanced Real Time Embedded Systems – Reg.

Sir,

Department of Electronics and Communication Engineering is planning to organize **Two Day National Level Workshop on Advanced Real Time Embedded Systems on 10/Feb/2020 - 11/Feb/2020.**

BUDGET PROPOSAL

The following is the approximate expenditure for the workshop.

Sl. No.	Name of the Item	Total Cost (Rs.)
1	Workshop Titled Flex Banners	1000
2	Posters	300
3	Certificates	500
4	Workshop Kit	2000
5	Honorarium to the Guest	12000
6	Refreshments	3500
Total		19300

Thanking You,

Yours Sincerely

Event Description:

Real-time systems are computer systems that monitor, respond to, or control an external environment. This environment is connected to the computer system through sensors, actuators, and other input-output interfaces. The computer system must meet various timing and other constraints that are imposed on it by the real-time behavior of the external world to which it is interfaced. The main aim of this workshop is to make participants skill full and efficient on all the hardware and software related concepts for Advanced Real Time Embedded Systems.

Event Photograph:

Details of Resource Persons:

Dr. J Ravi Kumar from NIT Warangal dealt with Introduction to Embedded Systems, Introduction to Arduino Architecture and Interfacing Motors and drivers to Arduino boards, Introduction to sensors and Interfacing, Interfacing blue tooth Module to Arduino and implementing IOT Applications.

Mr. Madhu from Orange research Laboratories, Hyderabad conducted hands on sessions [Lab sessions] on Introduction to Raspberry Pi, Architecture and Basic Pin out, Python Programming, Basic concepts and syntaxes in Python, Getting Started with R Pi, Booting OS, Configuration of RPi, Interfacing sensors, Reading data from sensors with Raspberry Pi, Creating a Channel at OLP Dashboard, uploading data for visualization at OLP, Deploying Device at OLP Dashboard, device connectivity through cloud, Socket communication, building an IoT Gateway.

Event Description:

The prime importance of drug analysis to gain information about the qualitative and quantitative composition of substances and species, that is to find out what a substance is composed of and exactly how much. This information guides development of the manufacturing operation and therapeutic action of drugs.

Event Description:

The Focus of the Workshop was on redefining the Role of Students of Professional Institutions in the National System of Innovation and in defining the Implementation of Labs that more fully take account of the needs of Present Usage. The Objective of the program is to create Awareness on Power System Lab and knows how to operate Various Equipment in the Lab and understand the Step by Step procedure.

Event Photograph:**Details of Resource Person:**

Dr.Ch Raju, senior resource person and Power systems simulation lab, being a technical trainer, he promotes active learning, adapt instruction to meet the needs of learners, and encourage individual practice. His journey as a Trainer gave lots of opportunities to skill with loads of technology. Areas of Interest in Programming: Configuration & Management, Robotic Process Automation: Automation Anywhere certified RPA Trainer. He had excellent experience in maintenance of power systems equipment.

Event Description:

Electrical & Electronics Engineering Department has organized a two Day Workshop on “LABVIEW Powered Automation” dated 26-07-2019 to 27-07-2019 by Dr. Pakkiraiah and B.Sreenivas for faculty, the third and final year B. Tech Students. LabVIEW offers a graphical programming approach that helps you visualize every aspect of your application, including hardware configuration, measurement data, and debugging. This visualization makes it simple to integrate measurement hardware from any vendor, represent complex logic on the diagram, develop data analysis algorithms, and design custom engineering user interfaces.

Event Photograph:**Details of Resource Person:**

The Speaker of the session was Dr. Pakkiraiah, Professor Doctor of Philosophy. He has valuable 10 years' experience in various institutions like , Aurora's Research and Technological Institute (REC), Anurag College, with different designations. Currently, He has been working as Professor in the Department of Electrical and Electronics Engineering. Hard working and an effective team leader with the ability to understand the changing needs of the students & management and act accordingly.
