MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter called as the 'MOU') is entered into on this the 16th May, 2017, by and between

SCIENT Institute of Technology, the first party, represented herein by its Principal of SCIENT Institute of Technology, Dr. G. Anil Kumar (hereinafter referred as 'First Party', the institution which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

AND

POWER LAB INSTRUMENTS, Electrical Power System Lab Equipment's, Test & Measuring Instruments. The second party, and represented herein by its Sale Manager, M.VEERAN, (hereinafter referred to as "Second Party", company which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

(First Party and Second Party are hereinaster jointly referred to as 'Parties' and individually as 'Party') as

WHEREAS:

- A) First Party is a Higher Educational Institution named:
 - (t) SCIENT Institute of Technology
- B) First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.
- C) The Parties intent to cooperate and focus their effortss on cooperation within area of Skill Based Training, Education and Research.
- D) Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interests.
- E) Power Lab Instruments, the Second Party is engaged in Business, Manufacturing, Skill Development, Education and R&D Services in the fields of - Software Development, Testing, Consultancy, Training & Development, Placements.
- F) Power Lab Instruments is having its corporate headquarters located at Hyderabad & it is an emerging software & software enabled services company delivering services through its branches in PAN India.

(Approved by AICTE & Affiliated to JNTUH, Hyderabad)

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARIES HERE TO AGREE AS FOLLOWS:

CLAUSE - 1 CO-OPERATION

- Both Parties are united by common interests and objectives, and they shall establish 1.1 channels of communication and co-operation that will promote and advance their respective operations within the Institution and its related wings. The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.
- 1.3 The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.

CLAUSE - 2 SCOPE OF THE MoU

- 2.1 The budding graduates from the institutions could play a key role in technological up-gradation, innovation and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge.
- Curriculum Design to Corporate Training: Second Party will give valuable 2.2 inputs to the First Party in teaching / training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
- 2.3 Industrial Training & Visits: Industry and Institution interaction will give an insight in to the latest developments / requirements of the industries; the Second Party to permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to working career. The Second Party will provide its Labs / Workshops / Industrial Sites for the hands-on training of the fearners enrolled with the First Party. Solent Institute of Technology

Ibrahimpatnam. R.R Dist - 501506 (Approved by AICTE & Affiliated to JNTUH, Hyderabad)

- 2.4 Research and Development: Both Parties have agreed to carry out the joint research activities in the fields of domain Artificial Intelligence, Machine Learning, Robotics, Augmented Reality, Block Chain, VLSI, Embedded Systems.
- 2.5 Skill Development Programs: Second Party to train the students of First Party on the emerging technologies like python, R programming, IoT in order to bridge the skill gap and make them industry ready.
- 2.6 Guest Lectures: Second Party to extend the necessary support to deliver guest lectures to the students of the First Party on the technology trends and in house requirements.
- 2.7 Faculty Development Programs: Second Party to train the Faculties of First Party for imparting training as per the industrial requirement considering the National Occupational Standards in concerned sector, if available.
- 2.8 Placement of Trained Students: Second Party will actively engage to help the delivery of the training and placement of students of the First Party into internships/jobs; and will facilitate placements for at least 15-20% of the students. The Second Party will itself absorb at least 15 percentage of the trained students.
- 2.9 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programs on the terms specified herein
- 2.10 There is no financial commitment on the part of the SCIENT Institute of Tecnology, the First Party to take up any programme mentioned in the MoU. If there is any financial consideration, it will be dealt separately.

CLAUSE – 3 INTELLECTUAL PROPERTY

3.1 Nothing contained in this MOU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

CLAUSE - 4 VALIDITY

- 4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period Power Lab Instruments, the Second Party, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of Training Partner, Power Lab Instruments, the Second Party after termination of this Agreement by way of communication, correspondence etc., shall not be construed as an extension of this MOU.
- 4.2 Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of Termination, both parties have to discharge their obligations.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARIES HERE TO AGREE AS FOLLOWS:

CLAUSE - I CO-OPERATION

- 1.1 Doth Parties are united by common interests and objectives, and they shall establish channels of communication and coroperation that will promote and advance their respective operations within the **Institution** and its related wings. The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.
- 1.3 The general terms of co-operation shall be governed by this MOU. The Parties shall ecooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.

CLAUSE – 2 SCOPE OF THE MoU

- 2.1 The budding graduates from the institutions could play a key role in technological up-gradation, innovation and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge.
- 2.2 Curriculum Design to Corporate Training: Second Party will give valuable inputs to the First Party in teaching / training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
- 2.3 Industrial Training & Visits: Industry and Institution interaction will give an insight in to the latest developments / requirements of the industries; the Second Party to permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to working career. The Second Party will provide its Labs / Workshops / Industrial Sites for the hands on training of the learners enrolled with the First Party.

PRINCIPAL

Page 3 of 5

Solent Institute of Technology Phrahimpatnam, R. R. Dt -401

(Approved by AICTE & Affiliated to JNTUH, Hyderabad)

- 2.4 Research and Development: Both Parties have agreed to carry out the joint research activities in the fields of domain Artificial Intelligence, Machine Learning, Robotics, Augmented Reality, Block Chain, VLSI, Embedded Systems.
- Skill Development Programs: Second Party to train the students of First Party on the emerging technologies like python, R programming, IoT in order to bridge the skill gap and make them industry ready.
- 2.6 Guest Lectures: Second Party to extend the necessary support to deliver guest lectures to the students of the First Party on the technology trends and in house requirements.
- 2.7 Faculty Development Programs: Second Party to train the Faculties of First Party for imparting training as per the industrial requirement considering the National Occupational Standards in concerned sector, if available.
- 2.8 Placement of Trained Students: Second Party will actively engage to help the delivery of the training and placement of students of the First Party into internships/jobs; and will facilitate placements for at least 15-20% of the students. The Second Party will itself absorb at least 15 percentage of the trained students.
- 2.9 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programs on the terms specified herein
- 2.10 There is no financial commitment on the part of the SCIENT Institute of Tecnology, the First Party to take up any programme mentioned in the MoU. If there is any financial consideration, it will be dealt separately.

CLAUSE – 3 INTELLECTUAL PROPERTY

3.1 Nothing contained in this MOU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

CLAUSE - 4 VALIDITY

- 4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period DEVI ELECTRONICS, the Second Party, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of Training Partner, DEVI ELECTRONICS, the Second Party after termination of this Agreement by way of communication, correspondence etc., shall not be construed as an extension of this MOU.
- 4.2 Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of Termination, both parties have to discharge their obligations.

PRINCIPAD

Clent Institute of Technology Thrahimpatnam, R. R. Dt. -501

Each student demonstrates strength of character and is college and career ready

Memorandum of Understanding

SCIENT Institute of Technology PERIOD: June 2017 – June 2018

Background and Introduction

This document defines the relationship of the SCIENT Institute of Technology and Vermac Labs a Initiative of Team247 Informatics. SCIENT Institute of Technology mission is that each student demonstrates strength of character and is college and career ready. CEIE vision is to develop a highly trained students and an engaged community dedicated to educating each student for a 21st century, multi-ethnic, global economy.

The Center's academic program is designed to provide its students with education and training that combines rigorous academic and technical curricula focused on specific in-demand industries and careers that will increase participants' employability in high-growth, in-demand occupations and industries and prepare them for post-secondary education as well as support the science, technology, engineering and math (STEM) industry related occupations.

1|Page

PRINCIPAL desent Institute of Technology (brahimpatnam, R. R. Dt - 901 ac.

CEIE has built partnerships, bringing comprehensive resources and services in these key areas:

- Standard Subjective Advanced Academic Learning Programs
- Self-Paced Learning Management with LMS
- Work Based Learning Placement (WBL)
- · Internship Opportunities
- Apprenticeship Opportunities
- Innovation Training & Capability Improvement Programs
- Entrepreneurship Learning Programs and Launch pads
- Research Projects & Funding Assistance
- Career Mentoring
- Hands-on Occupational Skills Training (OST)
- · Job Readiness Skills Training
- Sustainability

Purpose

The purpose of CEIE is to develop highly trained students and an involved community dedicated to educating each student in the 21st century, multi-ethnic, global economy.

CEIE needs Institution support in these key areas:

- Attending Monthly standing status meetings
- Conducting Internship / Apprenticeship Campus Drives
- Providing required infrastructure as mutually agreed
- Career Mentoring Staff Engagement support
- Work Based Learning Schedule Co-ordination
- Mutual Funding & Student Co-ordination in Participation
- Representation & Reciprocation with Valuable Feedback
- Cross Engagement Support during the need
- Talent Identification and Program Enrolments

CEIE - Program Institutional MOU

Belent Institute of Technology

2

CEIE's goal is to offer multiple educational and career pathways that help participants' transition into employment or post-secondary opportunities, such as higher education, long-term occupational skills training and/or apprenticeship.

Vermac Laba seeks to support the CEIE goals by agreeing to work together to accomplish the toltowing goals. All signing parties agree with and support the Institutional Improvement and Student empowerment initiatives, which strongly aligns with the CEIE vision for SCIENT Institute of Technology.

It. One Elements of the SCIENT Institute of Technology

- Integrated Academic and Career-Focused Learning: Grants will provide students with education and training that combines rigorous academic and career-focused curriculum to increase students' employability in in-demand industries and prepare them for employment, post-secondary education, long-term occupational skills training, or registered apprenticeships.
- Work-Based Learning and Exposure to the World of Work: Strong partnerships will
 provide work-based learning opportunities. In addition to actual work experience, youth
 participants will also participate in field trips, job shadowing, or other types of
 opportunities that provide students with exposure to different career paths and prepare
 them for the world of work.
- Robust Employer Engagement: Employer partners will provide work-based learning
 and mentoring, creating a path for students to in-demand industries and occupations
 including those in information technologies, advanced manufacturing and other science,
 technology, engineering and math (STEM) fields. Employers will also work closely with
 schools on professional development and training for staff to drive the sustainability of the
 gragram over the long term.

CERE - Program Institutional MOU

PRINCIPAD Select Institute of Teahner Charles and R. R. C.

Individualised Career and Academic Counselling: As an inlegral part of the program design, students will be provided with individualised career and academic counselling experiences to strengthen their career and post-secondary awareness and explore apportunities beyond high school.

Integration of Post-secondary Education and Training: Students will participate in education and training, while they are still in high school that leads to credit toward a post-secondary degree or certificate and an industry-recognized credential, where appropriate.

III, Responsibilities of Parties

All Signing Parties agree and understand the following:

Vermac Labs, SCIENT Institute of Technology (CEIE) will administer the Grant as fiscal
agent and oversee all Implementation Grant activities and adhere to all guidelines for grant
utilization given by the grantor and the Vermac Labs.

 Each signing party is committed to sharing project data and measures of progress on indicators with each other and with evaluators, within all applicable rules and regulations protecting individual rights.

3. Each signing partner is committed to assisting with developing an effective sustainability plan that will a) focus on professional development during the grant period (b) a plan that outlines how the program will be designed to build capacity and continue to provide the same level of instruction and support to participants whose participation will extend beyond the grant period.

CEIE - Program Institutional MOU

Selent Institute of Technology Ovahimosinam, R. R. Di . 9

V. Period of Performance

The period of performance is 2 year for performance Improvement and 3 years for student empowerment Planning Grant with an anticipated start date of April 1, 2018. This performance period includes all necessary implementation and start-up activities, with a nine-month planning and implementation period for grantees starting programs in the academic year 2018.

VI. Amendments/Modifications

From time to time, SCIENT Institute of Technology, CEIE and Vermac Labs may mutually consent to changes in the Scope of Work or any other aspect of this Agreement. Such changes shall be incorporated in written amendments to this Agreement and signed by the duly authorized representatives of all parties. This Agreement may be modified only by a formal, written modification signed by authorized representatives of the CEIE and Vermac Labs. All changes to the Scope of Work and/or any other aspect of this Agreement shall be agreed upon and mutually accepted via contract amendments executed by the CEIE and Vermac Labs.

VII. Access to Applicable Records

Vermac Labs agrees to preserve all its records for two (2) years <u>after the completion</u> of the grant under this Agreement and further that any specifically authorized representative of the CEIE shall have access to and the right to examine any directly pertinent books, documents, and records of Vermac Labs involving transactions related to this Agreement.

VIII. Right to Audit

Vermac Labs agrees to give the CEIE through any authorized representative, the right to audit all records, books, papers, or documents related to the Agreement for up to three (3) calendar years after the completion of this Agreement.

IX. Publication of Results

Should the parties to this Agreement decide that it would be advantageous to publish the results of this cooperative undertaking, the determination of same shall be made jointly and agreeable to each party. Publication by either party shall give proper credit to the other party.

(Approved by AICTE & Affiliated to JNTUH, Hyderabad)

- 2.4 Research and Development: Both Parties have agreed to carry out the joint research activities in the fields of domain Artificial Intelligence, Machine Learning, Robotics, Augmented Reality, Block Chain, VLSI, Embedded Systems.
- 2.5 Skill Development Programs: Second Party to train the students of First Party on the emerging technologies like python, R programming, IoT in order to bridge the skill gap and make them industry ready.
- 2.6 Guest Lectures: Second Party to extend the necessary support to deliver guest lectures to the students of the First Party on the technology trends and in house requirements.
- 2.7 Faculty Development Programs: Second Party to train the Faculties of First Party for imparting training as per the industrial requirement considering the National Occupational Standards in concerned sector, if available.
- Placement of Trained Students: Second Party will actively engage to help the delivery of the training and placement of students of the First Party into internships/jobs; and will facilitate placements for at least 15-20% of the students. The Second Party will itself absorb at least 15 percentage of the trained students.
- 2.9 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programs on the terms specified herein
- 2.10 There is no financial commitment on the part of the SCIENT INSTITUTE OF TECNOLOGY, the First Party to take up any programme mentioned in the MoU. If there is any financial consideration, it will be dealt separately.

CLAUSE 3 INTELLECTUAL PROPERTY

3.1 Nothing contained in this MOU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

CLAUSE 4 VALIDITY

- 4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period Unnathi Learn Systems, the Second Party, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of Training Partner, Unnathi Learn Systems, the Second Party after termination of this Agreement by way of communication, correspondence etc., shall not be construed as an extension of this MOU.
- 4.2 Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of Termination, both parties have to discharge their obligations.

MEMORANDUM OF UNDERSTANDING (MOU)

Hyderabad

Date: 08/10/17

This Memorandum of Understanding is made and executed at SCIENT Institute of Technology, Ibrahimpatnam, Hyderabad, on the 08th Day, October 2018. This MOU signifies a statement of intent for collaboration between

TEAM247 INFORMATICS PRIVATE LIMITED, operating business at Madhapur Corporate Office, Hyderabad represented by Mr. Rahul Venepally, CEO, herein after called the FIRST PARTY

And

SCIENT Institute of Technology, located at Ibrahimpatnam, Hyderabad, Telangana, is approved by AICTE, New Delhi& affiliated to JNTU, Hyderabad, represented by Dr. G.Anil Kumar, Principal, herein after called as the SECOND PARTY.

Parties and their intent:

- A) <u>First Party (TEAM247)</u> is a IT & ITES services company engaged in Product Development and Software related services, Up Skilling& Recruiting services
- B) <u>Second party(College)</u> is a Higher Educational Institution committed in providing a holistic environment to their students for a greater learning & competency.
- C) First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhancedopportunities.
- D) The Parties intent to cooperate and focus their efforts on cooperation within areas of Campus recruitment training, andcampus placements to the students.
- E) Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutualinterests.5

Dear Sir,

 ${f Sub}$: Request for your kind permission to undergo internship by III rd year B.Tech students – Reg-

It gives me pleasure to share that, Scient Institute of Technology, Ibrahimpatnam, Hyderabad affiliated to JNTUH established in year 2001. It is believed that the hands-on approach and experience in the various aspects of industry and manufacturing plants to the students enrich their knowledge and in this context, the 3rd year students are permitted to go industries to undergo internship which is also part of their curriculum. It is learnt that Team247 Informatics Pvt. Ltd is offering internships to engineering students in the area of Electric Vehicle Design, Power Electronics and Design using MATLAB & Machine Learning using Python Programming.

In this context request you to permit our students to do internship in the Team247 Informatics Pvt. Ltd.
